

Hygienic Centrifugal pumps

CSA Series

CSA series pumps are designed, tested and approved to EHEDG (European Hygienic Engineering & Design Group) hygiene protocols and to US 3A standards. Used mainly in the foodstuffs and pharmaceutical industries, they fulfil the highest sanitary requirements.

The modular construction enables C.S.F. to provide the most suitable pump. Optimised performance and low NPSH requirements are integral to the design of CSA Series pumps.

Standard design

Open impeller.

Wetted parts in CF-3M 1.4404 / AISI 316L stainless steel, investment cast and electro-chemically polished.

Special internal finish to 0,8 micron Ra.

Adjustable stainless steel feet.

Flow rates up to 300 m³/h, heads up to 100 m (10 bar); low NPSH requirements.

Sanitary Self-Priming Pumps

n° 02 - 11 739

ASH series

ASH Series pumps are approved to the latest US 3A sanitary standards; ideal for systems where compliance to the most strict hygiene regulations is essential.

The ability of ASH pumps to repeatedly create a vacuum makes them ideal for applications where air or gas is entrained in the pumped liquid – Perfect for CIP scavenge and duties where the inlet pipework is only partially filled with fluid, including foaming products.

Manufactured for a wide range of requirements in the food, beverage and pharmaceutical process sector. This market leading design includes the latest technologies and construction materials.

Standard design

Wetted parts in CF-3M 1.4404 / AISI 316L stainless steel. Investment cast and electro-chemically polished.

Special internal finish 0,8 micron Ra.

Adjustable stainless steel feet.

Flow rates up to 40 m³/h, heads up max. 35 m (3,5 bar) (50 Hz).

CSA series

Closed coupled sanitary centrifugal pumps with open impeller and independent shaft support.

Suitable for motors in compliance with the following standards:
 IEC 34-1
 VDE 0530T1
 NF C51-111
 BS5000 PART 99
 NEMA NG1 PART. I

Greased lubricated bearings.
 Clamp design casing and seal. Easy disassembly, quick inspection, cleaning and maintenance. Rotation of the delivery port for optimised installation.

CSA SERIES CERTIFIED TO EHEDG / 3A

Seals:

Single external mechanical seal
 Double flushed (axial + radial) mechanical seal

CSA SERIES CERTIFIED TO 3A

Seals:

Protected, balanced and bi-directional internal mechanical seal with seats according to EN 12756, ISO 3069 standards.

Elastomers (certified to FDA - 3A - USPVI):

EPDM
 FLUOROCARBON - (FPM *DIN/ISO*), (FKM *ASTM*)
 P.T.F.E. (FEP)

Connections:

CLAMP
 DIN 11864
 Others on request
